APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 61644 is issued subject to the terms and conditions imposed in said Permit 61644 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 48997 Certificate 13237; 48998 Certificate 13238; 48999 Certificate 13239; 49931 Certificate 13240; 53342 Certificate 13245; 57096; 57097; 57098; 61203; 61643; 61644; 61707; 61711-T; 62380-T; 62381-T; 62382-T, and 62383-T shall not exceed 787.0 million gallons annually.

This temporary permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records will be kept of the following: the volume of water pumped from each well, the volume of water consumptively used for mining and milling purposes projectwide and the amount of water used for reclamation purposes. These records will be submitted within 15 days after the end of each month. Please also submit the water level (static or pumping) of each permitted well with the pumping report.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on October 20, 1997 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

(CONTINUED ON PAGE 2)

(PERMIT TERMS CONTINUED)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.09 cubic feet per second , but not to exceed 21.0 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

Proof of completion of work shall be filed before:

Application of water to beneficial use shall be filed on or before:

Proof of the application of water to beneficial use shall be filed on or before:

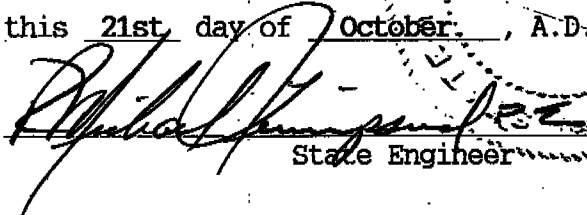

Map in support of proof of beneficial use shall be filed on or before:
